5th October 2026

Star room information

In the star room this fortnight we are focussing on shapes and colours, the children will be participating in many craft activities that involve mixing colours and using shapes to make pictures. The children will be exploring shape sorters and playing with shapes, can they put them in the right places and finally they will be exploring the colour sorting box, singing songs about colours and the rainbow.

Moon room information

In the moon room this fortnight we are focussing on autumn and looking at the way the world is changing around us. The children will be going on an autumn walk around the school grounds, playing in all the fallen leaves, looking for squirrels and collecting sticks and leaves for the sensory tray. The children will be learning autumn number songs and learning how to count to 5 and the older children to 10 and beyond. The last focussed activity they will be doing is learning to do things independently, can the children put on their own clothing to go outside, can we use cutlery at the lunch table and can we help to cut our fruit at snack time.

Please can we ask parent's to try and leave any toys that are not a comforter in the car in the morning please, we do not want to have the responsibility of these toys getting lost whilst at nursery and we have also noticed this is upsetting some of our children when the toys are put away in their nursery bags.
We are now trailing a new method with children being put to sleep at nursery, depending on the day Moon room can have up to 30 children to put to sleep and as you can imagine this can take quite a lot of time, from now on any child that has been patted by an adult for 10 minutes and isn't asleep will be got up and sent to play in the craft room with any children that are awake. If there are any problems with this please speak to a member of staff.

Sun room information

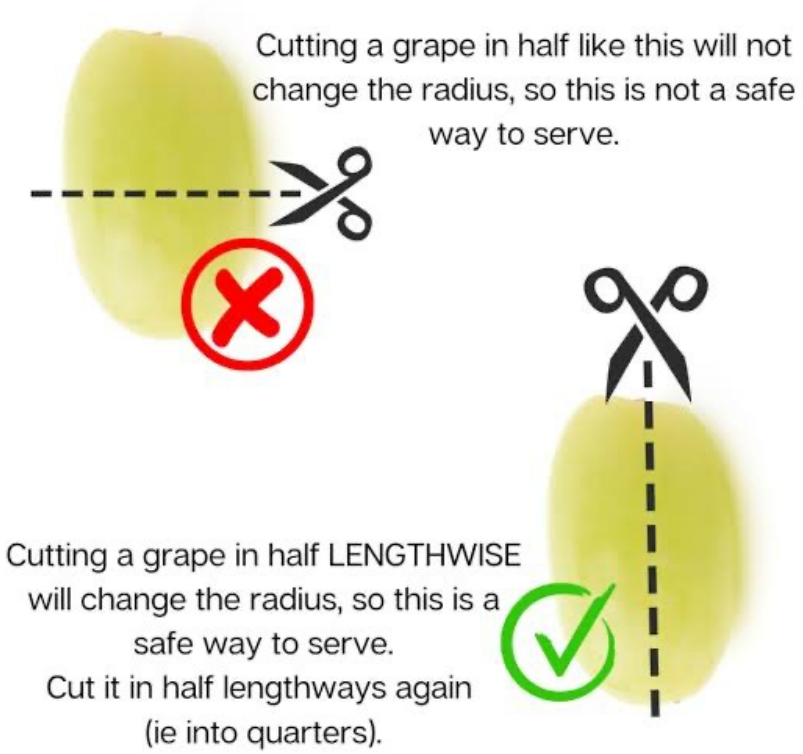

The focus for the next 2 weeks in the sun room is animals and their habitats the children will be taking part in animal yoga using different styles on music to create different animal shapes when the music stops, they will be looking at a floor map of countries from around the world and looking at where the different animals live and lastly they will be looking at animal habitats in the OLE garden, seeing if they can talk about what animals might need in their home that we don't need or use.

Nursery Christmas party:
We will be holding this at Adderbury Parish Institute again this year as it worked so well for us last year. Lewis will be joining us again for Moon and Sun rooms parties and star room will have sensory trays to explore.
Timings for each party are below:
Star – 9.30 – 11
Moon – 3.30 – 4.45
Sun – 5.00 – 6.30
Invitations for the party will be sent out closer to the time, we hope lots of you can join us to celebrate.
